2025 COMPANY PROFILE

Who We Are

About Us

Inti Dimensi Cakrawala was initiated by a group of people with professional experiences in the IT business. Founded in 2021 in Jakarta with its main focus on customer satisfaction by providing the best-fit solutions and services.

We are committed to ensure our customer's business continuity runs well and can be relied on by implementing the most-appropriate yet sophisticated technology. We can managed to create the ecosystem that is functionally and financially suitable by integrating hardwares and softwares solution to customers, we believe it is one of our added values as a system integrator. We put professionalism, high work ethics, fast response, detail orientation, flexibility, and trustworthiness as part of our culture in serving our customers.

We support clients from vast sector and industries in indonesia, including start-ups, small-medium businesses, and corporates. No matter what scale of your company is, the most important thing for us is that we can deliver whatever your requirements and resolve any matters you are facing. We believe that the relationship we build with our customers is not just business, but a long-term friendship that is mutually enjoyable and beneficial. Likewise, the relationships we build with solution vendors have become long-lasting friendships and continue to grow stronger.

Supported by major and leading vendors in providing solutions, from assessment, implementation to after-sales service, ensuring customers receive the best commercial and technical support. Whatever, whenever, or however the requirements are, no need to worry, we are here to help ease the burden of your pain-points.

The Vision

To become the best-leading and most trusted technology and information system integrator in Indonesia.

The Mission
